GET THE LOOK

GET THE LOOK:

MARA HOFFMAN

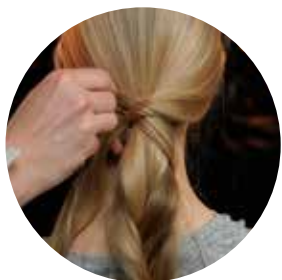

STEP 1. Mist clean, dry hair with **Salt Spray** and scrunch to create texture.

STEP 2. Separate hair into three sections and gather back section into a low, loose ponytail. Secure with an elastic.

STEP 3. Braid the back section using a 3-strand technique and secure ends with an elastic. Gently knead the braid to loosen, allowing front pieces to fall to frame the face, creating a faux-bob look.

STEP 4. Wrap each side section around the centre braid and secure with an elastic.

STEP 5. Gently loosen the finished braid and finish with **Work It Hairspray** and a spritz of **Camera Ready Shine Spray**.
